

**Questions for
RFP PR-HQ-02-11865**

September 4, 2003

Two questions previously addressed were resubmitted for consideration.

Question 1. Does the RFP require and will EPA consider proposed technical approaches for performing the RFP SOW beyond the approaches required in response to each sample work assignment?

Answer 1. The Technical Proposal Instructions are amended to request that technical approach be addressed in the proposal, in addition to the sample work assignment approach.

Question 2: How many points out of the 35 points allocated for the Technical Experience and Approach are assigned to the Sample Work Assignment Responses?

Answer 2: The evaluation criteria are amended to break out the 35 points by subcriteria, 25 points for general technical experience and approach, and 10 points for the sample work assignments.
